

# CALERA

## **2017 Mt. Harlan Pinot Noir *Selleck Vineyard***

Calera's Mt. Harlan Vineyards are located in the Gavilan Mountains 25 miles east of the Monterey Bay. The site was chosen for its limestone soils and ideal climate. At an average elevation of 2,200 feet it is among the highest and coolest vineyard sites in California.

### **In the Vineyards**

A wet winter, with more than double our average annual rainfall, made for very happy vineyards in 2017. While budbreak arrived slightly later than usual, warm spring weather led to excellent fruit sets at our Mt. Harlan vineyards, with above-average yields for both Pinot Noir and our white varieties. Thanks to the abundant early season rains, and Mt. Harlan's high elevation and marine-influenced climate, our estate vineyards weathered a significant Labor Day heat event wonderfully, producing complex and elegant wines, with beautifully balanced acids and sugars.

### **Comments from the Winemaker**

Year after year, the 1975 plantings of Selleck Vineyard produce a wine of stunning poise and power, with silky tannins and lush, pure flavors. Offering layers of juicy black cherry, blackberry, tea leaves and cracked pepper, this is an impeccably balanced wine, with a bright, harmonious finish.

### **Varietal Content**

100% Pinot Noir

### **Harvest Information**

Appellation: Mt. Harlan

Harvest Dates: October 7- 9

Average Sugar at Harvest: 24.8° Brix
